EDUCATION

Obafemi Awolowo University, Ile-Ife, Osun State — *B. Sc*

April 2016 - Expected year of graduation October 2020

Course: Computer Science With Economic

Dept: Computer Science and Engineering

EXPERIENCE

February 2019 - April 2019

I interned at Kajab Engineering Services Ltd with the role of developing the back end of the company website adding a project management system to the website with ruby on rails and also worked with the IT manager in redesigning the front end of the website. while there I also learnt about telecommunication both fibre and microwave communication and assisted in a series of project planning and survey.

April 2018 - January 2019

I interned at E-Spatech Solutions as a full stack web developer using Ruby on Rails and PHP for backend, I developed solutions for their clients such as administrative portals, eCommerce, etc.

October 2018 - January 2019

I also worked as a remote intern for Infinity Prints, serving as a Ruby on Rails developer, I developed websites for their clients.

SELF PROJECTS

October 2018

I developed a robust shopping web app with an extensive admin interface (CMS) with Ruby on Rails and spree gem https://github.com/oomis/shop.

SKILLS

I Program in Ruby, Ruby on Rails, Python, HTML and Css.

I have basic knowledge in UNIX, TCP/IP networks, SQL, MySQL, NFS, DHCP, NTP, SSH, DNS, SNMP.

I have good communication skill.

I have basic skills with HCI and user satisfaction.

I am willing and fast to learn new computer languages and skills.

I am able to work effectively under pressure and love challenges.

I have a team spirit and I can work conveniently with anyone.

November 2017 - present

I developed www.seekhostel.com that allows students to search for accommodation and rent accommodation.

November 2017 - present

I started a group on campus (named CodeHut) where students interested in web development learn, build on their skills and improve themselves, with currently 27 members.

April 2017 – present

COMPETITIONS
